

Cambridge Woodwind Makers

CORNETTO MAKING WORKSHOP OUTLINE

Preliminary outline subject to alteration

Day 1.

- Introduction to the workshop demonstrating the tools and explaining the process.
- Carving practice – carve and use scrapers to finish without damage.
- Carve first half.

Day 2.

- Carve second half.
- Finishing both halves with scraper.
- Glue at the end of the day – waterproof PVA.

Day 3.

- Drill holes.
- Shaping the outside with spokeshave and/or scraper.
- Cutting thread grooves with a rasp.

Day 4.

- Marking the diamonds.
- Practice carving the diamonds (reverse of bore practice blank!).
- Cutting the diamonds.
- Leathering.
- Oiling.
- Tuning theory.

Further oiling and tuning can be done at home. Materials list and instructions will also be provided for each participant.
